

Como o Zika altera a fisiologia fetal desencadeando a microcefalia

MO413 / MC936 - Projeto Final (entrega 3)

Informações Preliminares

Equipe (Get Out Zika):

- Bruno Brito Pereira da Silva | b213947 | Biologia
- Márcio Silva Cruz | m290232 | Computação
- Rafael Simionato | r066505 | Computação

Descrição Resumida do Projeto

Arboviroses são doenças causadas por vírus transmitidos por artrópodes.

Zika vírus (ZIKV) detectado no Brasil em 2014 emergiu em 2015:

- complicações neurológicas
 - em adultos foi a síndrome de *Guillain Barré*
 - em neonatos, a microcefalia.

Epidemia de ZIKV (2015-2017):

- causou grande impacto na saúde pública brasileira.
- Existem duas linhagens de ZIKV a asiática e de uganda

Dados de RNA seq

- obtidos pelo GEO
- advindas do artigo de Tabari et al RNAseq de células tronco neuronais(Lt-NES ®)

Projeto:

- Como o zika altera a fisiologia fetal desencadenado a microcefalia

Fundamentação Teórica

- Doenças negligenciadas
- SUS
- Efeitos sistemicos virais

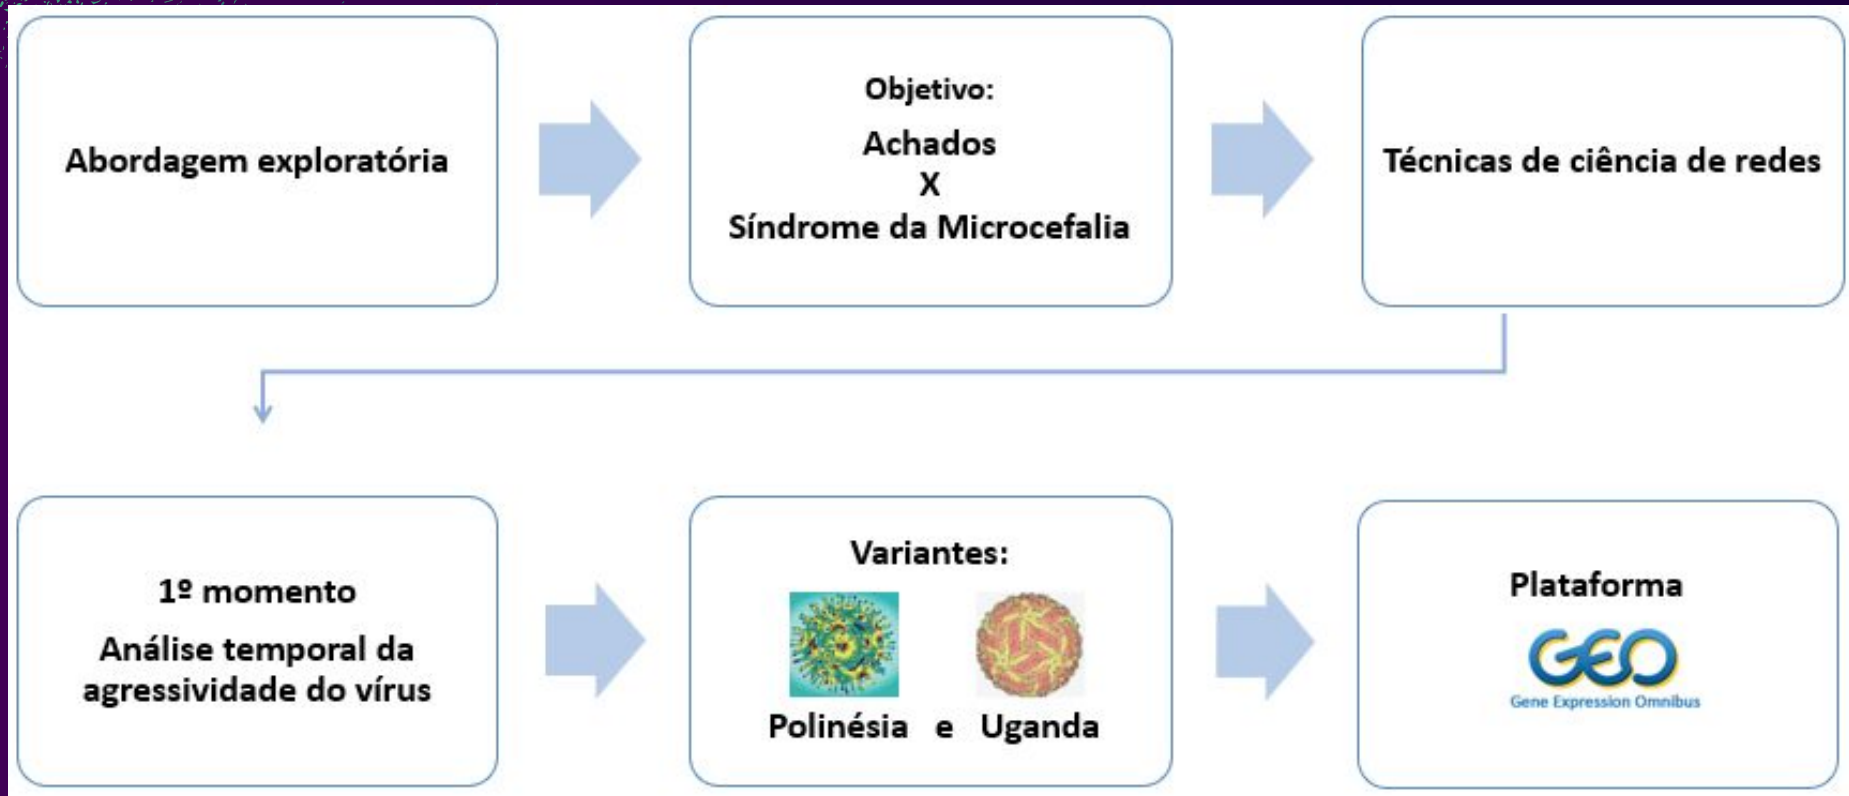

Perguntas de Pesquisa

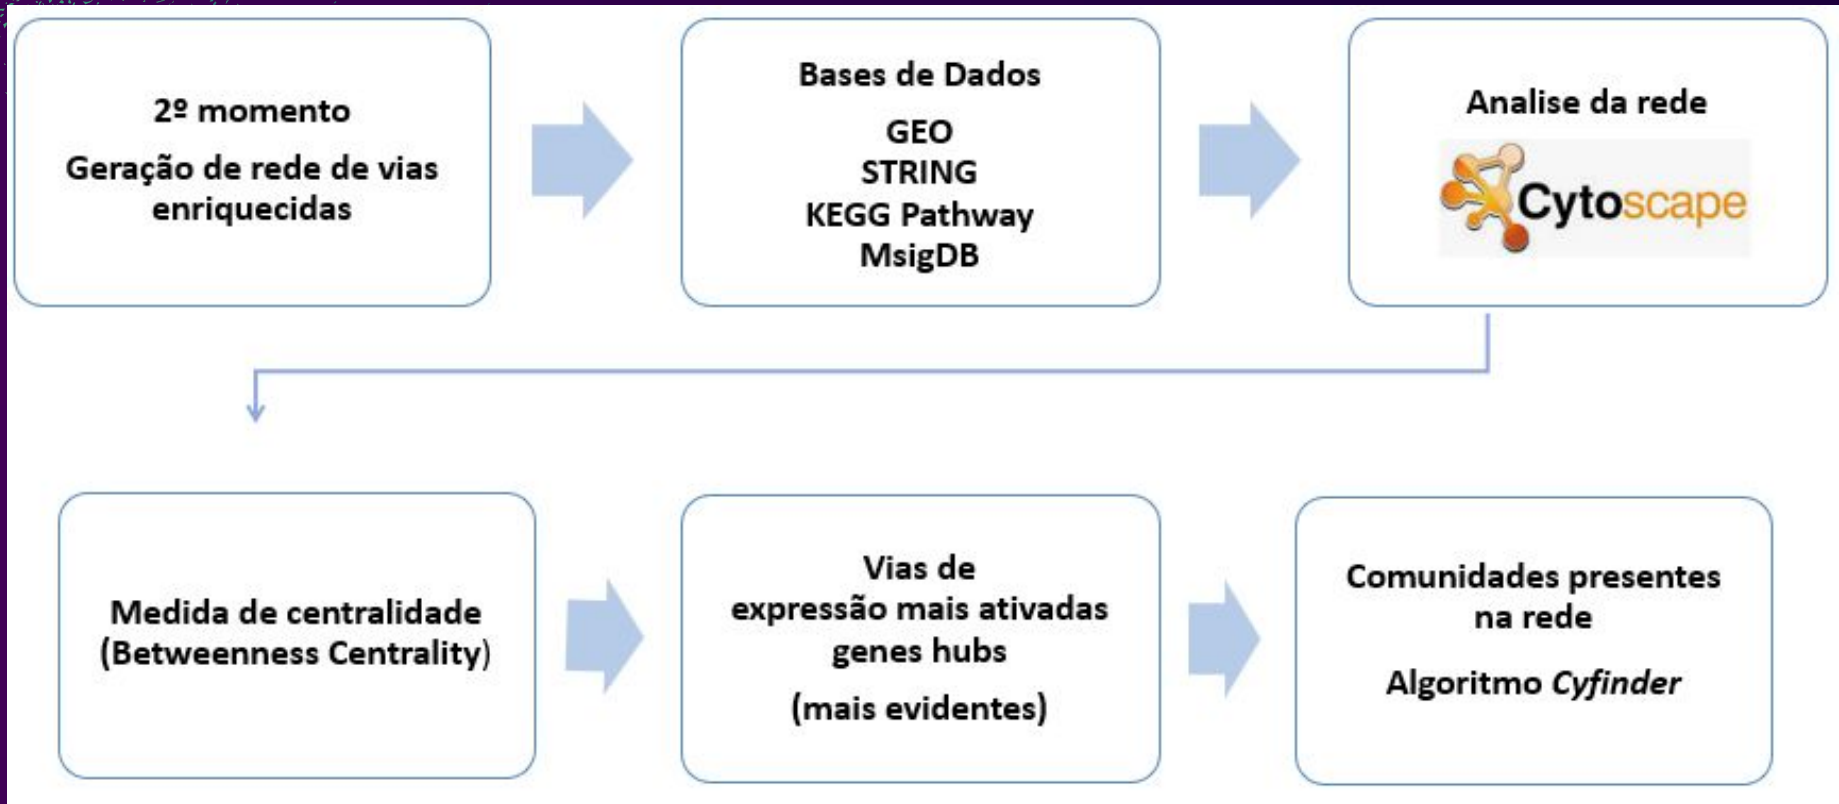

- Quais células do sistema imune passam por alteração no momento da infecção e como isso afeta a expressão de citocinas?
- Quais proteínas da formação de tecido nervoso são alteradas ?
- Existem diferenças entre as variantes de zika e como isso pode explicar a microcefalia no Brasil ?

Interpretação Biológica

Expressão de alguns genes

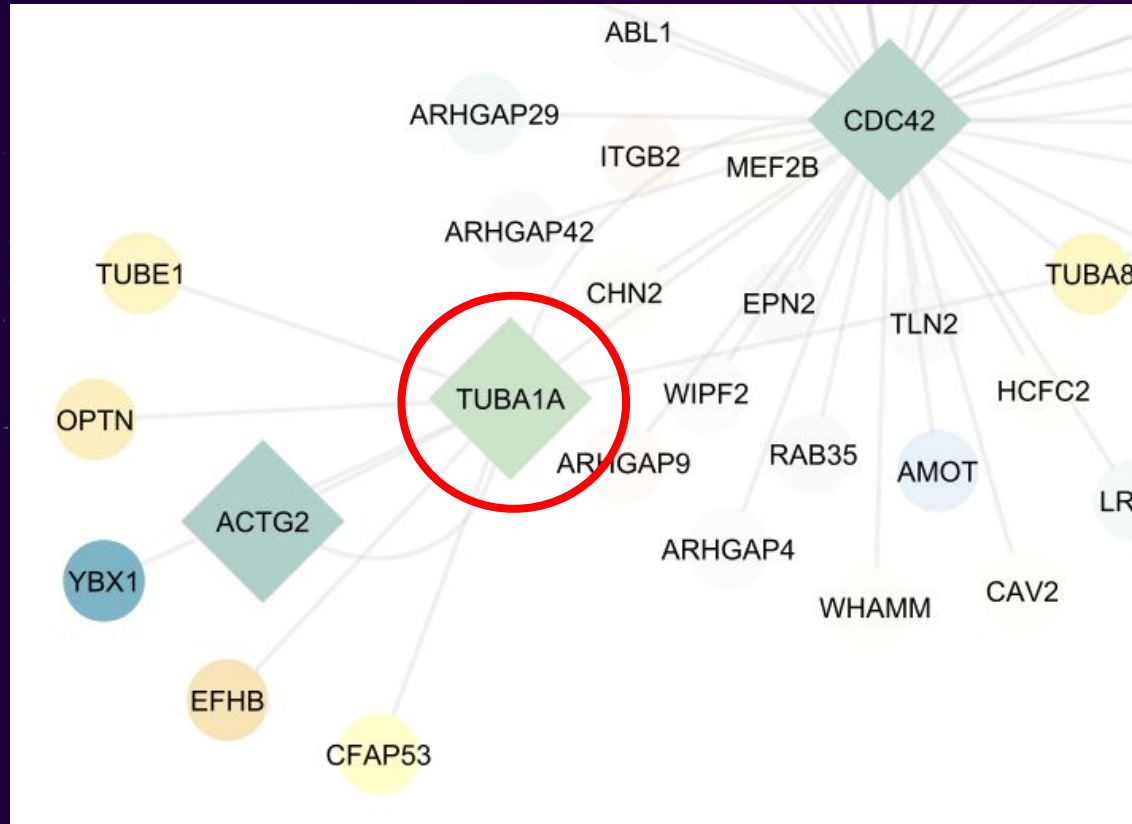

- TLR3
- IL15
- IRF1
- Interferon

Células imunes
ativadas

- Neutrófilos
- Linfócitos

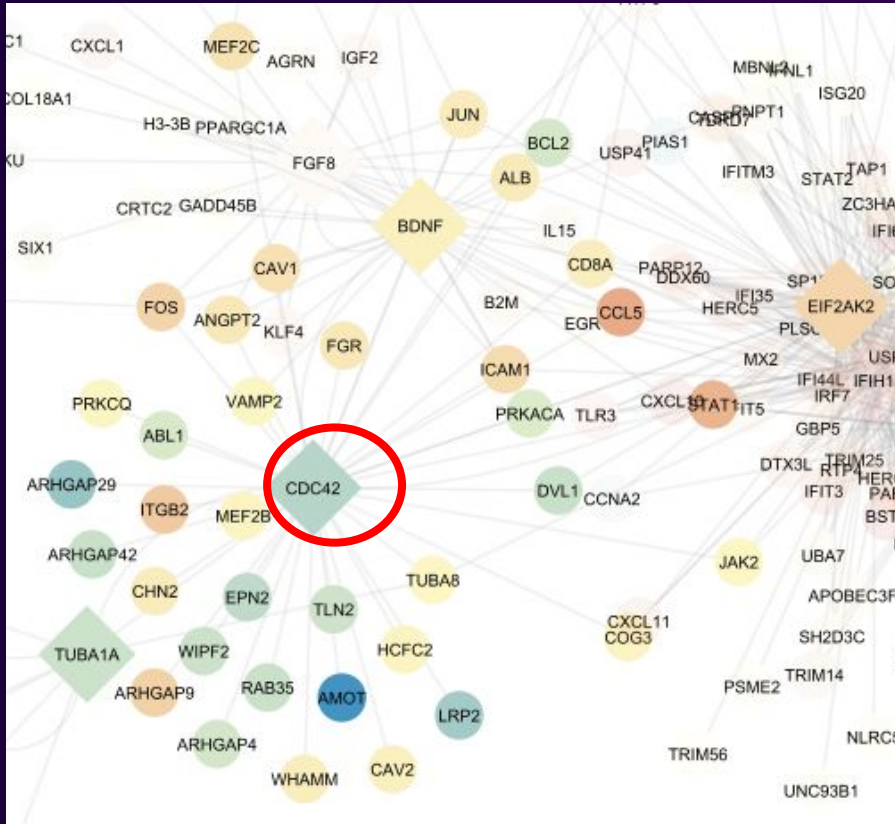

TUBA1A

TUBA1A: mutação ou
down regulação causa
microcefalia

Log2FoldChange:
-0.544

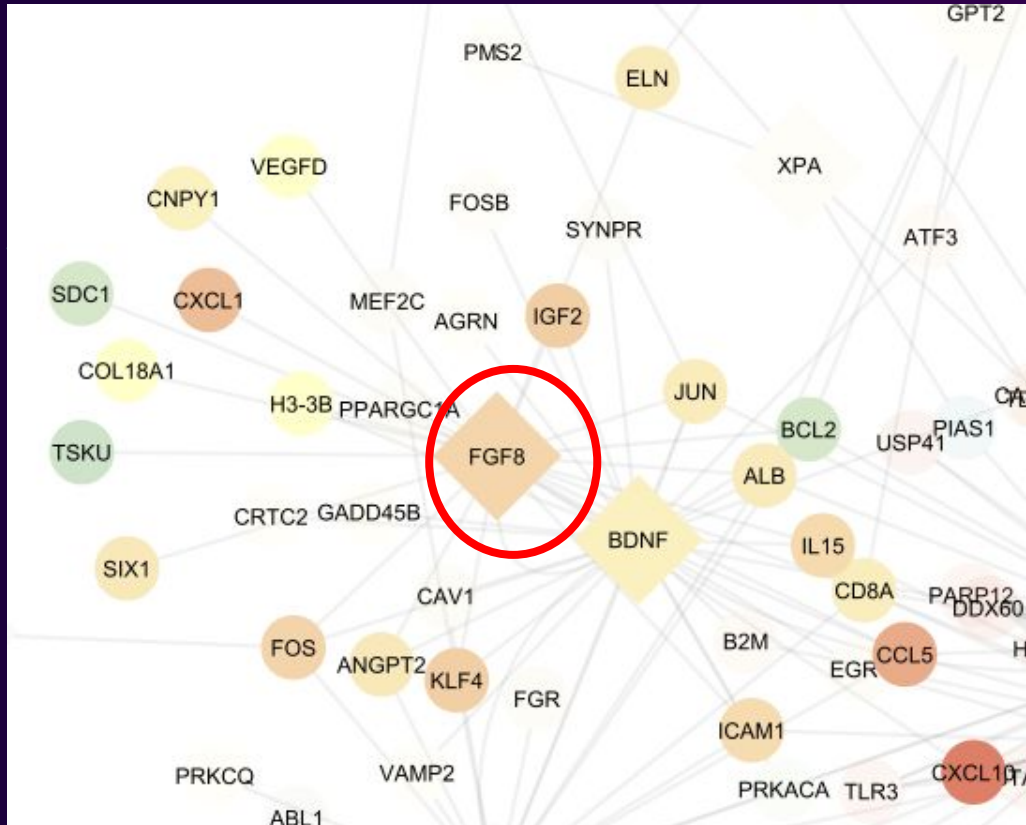

CDC42

CDC42: sobrevivência celular

Log2FoldChange:
-0.76

FGF8

FGF8: sobrevivência celular

Log2FoldChange:
2.232

BDNF

BDF: é um fator de sobrevivência de tecido nervoso
Proteínas inflamatórias :
IL15,CCL5

Log2FoldChange:
0.811

Respondendo a pergunta da Pesquisa

- Quais células do sistema imune passam por alteração no momento da infecção e como isso afeta a expressão de citocinas?
- Quais proteínas da formação de tecido nervoso são alteradas ?
- Existem diferenças entre as variantes de zika e como isso pode explicar a microcefalia no Brasil ?

Trabalhos Futuros

Analisar a diferença entre pacientes com microcefalia e outros com zika+microcefalia.

FIM
